TITLE: FASHION SHOP

Project title: e-commerce Your Fashion shop

Project description : Fashion shop is a e-commerce website where we use HTML/CSS to a greater extent and make it designer and functional here we have the clothes variety

- A **responsive, real-world website** built using the HTML/CSS
- Demonstrates core web development skills:
 - Structuring content with **HTML5**.
 - Styling with **CSS3** (Flexbox/Grid, animations).

Key Features about the project

Professional Layout: Clean sections (hero, features, testimonials).

✓ **Interactive Elements:** Smooth buttons, navigation, and hover effects.

✓ **Fully Responsive:** Adapts to desktops.

✓ **Easy to Customize:** Changed colors, content, and images to make it unique.

Technical Skills Applied

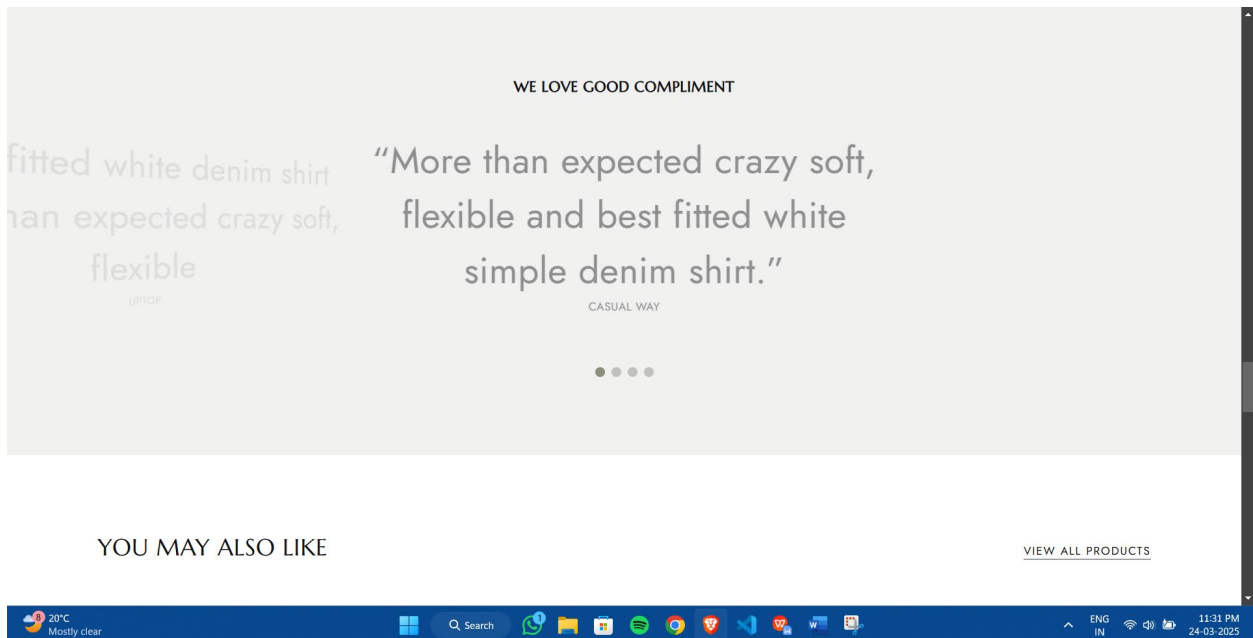

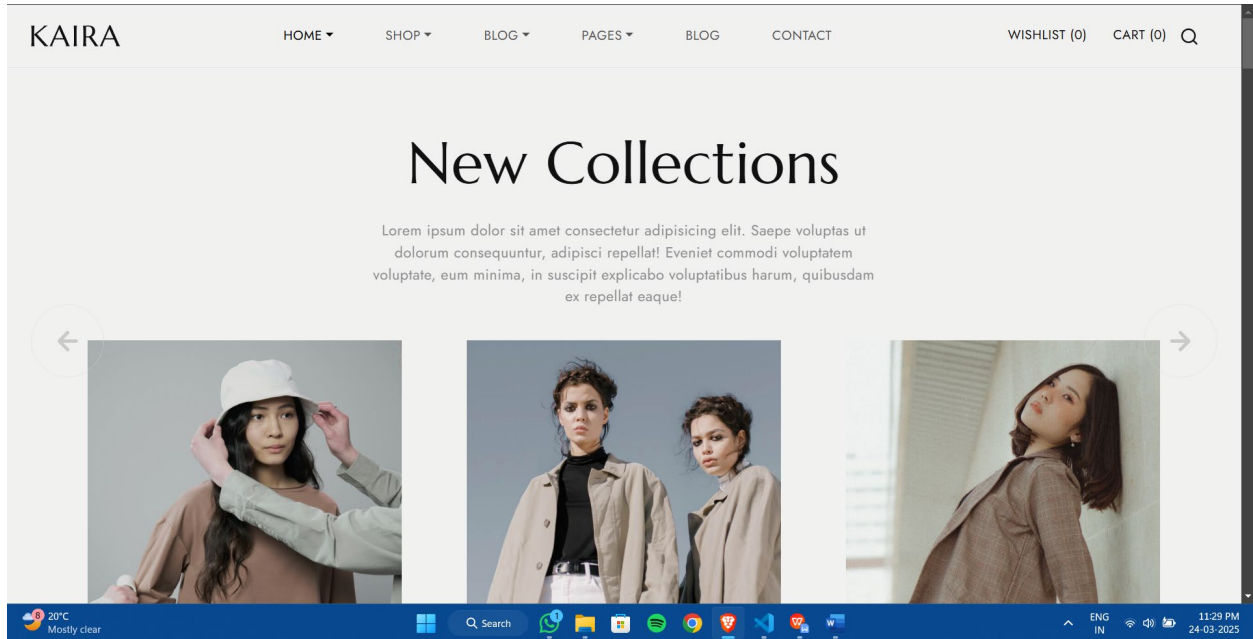

Heading: I learnt how to work with HTML and CSS and make a dynamic website

Content:

- **HTML5:** Semantic tags (<header>, <section>) for better structure.
- **CSS3:** Used Flexbox/Grid for layouts, @media queries for responsiveness.
- **Debugging:** Browser DevTools to test and fix design issues.
